

370 VAC, ROUND SHAPE MOTOR RUN CAPACITORS - DUAL

Submittal Information

Part No 15958-15983
 Document No. SPEC15958
 Date 2021-04-07
 Revision 02

General Properties

Shape: Round
 Withstand Voltage: 370V AC
 Tolerance: +/- 5%
 Work Temperature: -40 °C to +70 °C / -40 °F to 158 °F

Applications

Round shape motor run capacitors are commonly used for air conditioning, to help in the starting of the compressor and the condenser fan motor. Round capacitor can be used to substitute oval shape one with the same MFD AND Volt specs.

Features

- UL Listed.
- Dual capacitance .
- Metal can capacitors are designed for continuous run.
- Delicate and strong body of aluminum electrolytic capacitor, maintenance free design and long life time.
