

New Product

COPPER PANCAKE COIL

The copper pancake coils produced by Dakota Sourcing meet ASTM B280 standard. Available in numerous sizes.

- ✓ High electric and heat conductivity
- ✓ Easy to weld
- ✓ Long life
- ✓ Highly flexible

Features

- Copper refrigerator tube has the features of high temperature resistance, corrosion resistance, oxidation resistance, durability, long service life.
- Having strong heat transfer capability because the copper tubes are hollow.
- Good heat dissipation and refrigeration capability, high strength at low temperature.
- High dimensional accuracy. The floppy copper tube can be bent and deformed as needed to meet different needs.
- Refrigerator tubing is not only used for refrigerator, freezer and air conditioner as refrigeration tubing coil, but also used as a HVAC system pipe.

Item No.	Specifications
90001	1/4" OD X 50' Copper Pancake Coil
90002	5/16" OD X 50' Copper Pancake Coil
90003	3/8" OD X 50' Copper Pancake Coil
90004	1/2" OD X 50' Copper Pancake Coil
90005	5/8" OD X 50' Copper Pancake Coil
90006	3/4" OD X 50' Copper Pancake Coil
90007	7/8" OD X 50' Copper Pancake Coil
90008	1 1/8" OD X 50' Copper Pancake Coil

Applications

Cooling and air conditioning

Automobile industry

Equipment manufacturing

Construction (rooftops, gutters)

Refineries and heating industry equipment

etc.
