SILICONE SEALANTS

Mildew Protection & Water-resistant

Durable & Flexible

Compatibility with Metal Finishes

Versatile

Easy to Apply

FEATURES

- ✓ Prevent the growth of stain-causing mold and mildew, protecting against water damage.
- ✓ Superior flexibility and strong adhesion, provides a flexible, durable seal for both exterior and interior projects.
- ✓ Will not discolor most metal finishes such as chrome, bronze, and nickel, ensuring a clean appearance.
- ✓ Can be used in a wide range of applications, including air conditioners, ducts, furnaces, refrigerators, gutters, windows, and doors, etc.
- ✓ Can be used with a caulking gun.

INSTRUCTIONS

1. Remove the old caulking.
2. Clean the surface and allow it to dry completely.
3. Cut the tip of the nozzle or spout to the desired size at a 45° angle.
4. Load the cartridge into a caulk gun and apply the sealant.
5. Smooth the caulk with a tool or your finger.
6. Use a dry cloth to wipe off any excess from the surface.
7. Wait for approximately 5-10 minutes and check the adhesion of the sealant.

Note: Wait at least 24 hours for the seal to dry before using your project.
