

## HIGH PERFORMANCE PAD

### Submittal Information

Part No 18301-18305  
Document No. SPEC18301  
Date 2021-09-14  
Revision 02

### General Properties

Material: EVA and rubber  
Color: Black & blue  
Max load: 340 kPa (49.3 psi)

### Application

Designed for heavy machinery, such as air compressor, HVAC system, air conditioner units, printer, treadmill, or other heavy object needs vibration or noise control.

- Vibration Isolation
- Noise Absorbing
- Anti-slip

### Specification

Item No.	Specifications	U/M	Std. Pkg.
18301	2" x 2" x 7/8"	EA	100
18302	3" x 3" x 7/8"	EA	36
18303	4" x 4" x 7/8"	EA	24
18304	6" x 6" x 7/8"	EA	12
18305	18" x 18" x 7/8"	EA	6

### Features

- Made of High Strength Rubber and blue EVA center material, which is structurally more sound than cork, more effective at vibration dampening than solid rubber.
- Not affected by oil or chemicals.
- Designed to withstand the aging and shock absorption of heavy heat pumps, stereo equipment, treadmills, washing machines and dryers, air compressors, etc.
- Rubber is used as a non-slip surface on the top and bottom of the pad, with good tensile strength and elongation characteristics.
- Indoor or outdoor rated up to 60 PSI load.

**Note:** This pad is made of industrial-grade rubber with excellent performance and will emit rubber odor. If you plan to use indoors, we recommend placing these mats in an open area for at least a week. Washing with soap will also partially reduce the odor.
