

PVC TRAPS

Submittal Information

Part No 12415-12419
Document No. SPEC12415
Date 2026-03-17
Revision 01

General Properties

Material: PVC (Polyvinyl Chloride)
Color: White
Available sizes: 3/4", 1"
Standards: ASTM D1785
Surface finish: Smooth internal and external surfaces
Applications: Suitable for HVAC condensate drainage systems, including air handler units, mini-split systems, and furnace drainage applications.

Specifications

P-Trap

Item NO.	Size	D (Diameter)	T	L	H Ref	H1 Ref	U/M	Std.Pkg
12415	3/4"	1.05" (± .004)	.113" (+.020 / -.000)	8.00" (± .25)	4.50"	1.75"	EA	50
12418	1"	1.315" (± .005)	.133" (+.020 / -.000)	9.75" (± .25)	6.00"	3.00"	EA	10

R-Trap

Item NO.	Size	D (Diameter)	T	L	H Ref	U/M	Std.Pkg
12416	3/4"	1.05" (± .004)	.113" (+.020 / -.000)	10.75" (± .25)	2.55"	EA	50
12419	1"	1.315" (± .005)	.133" (+.020 / -.000)	12.00" (± .25)	3.56"	EA	10

J-Trap

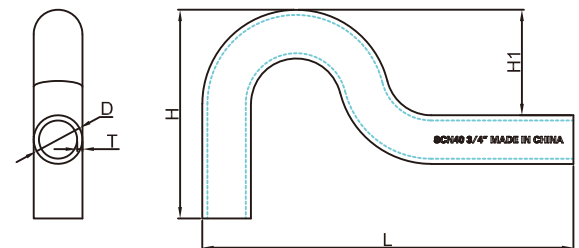

Item NO.	Size	D (Diameter)	T	Height 1	Height 2	U/M	Std.Pkg
12417	3/4"	1.05" (± .004)	.113" (+.020 / -.000)	4.25" (± .25)	5.50" (± .25)	EA	50

Features

- Prevents air infiltration and maintains proper system pressure.
- Designed for HVAC condensate drainage applications.
- Smooth interior minimizes clogging.
- Lightweight for quick and easy installation.
- Durable, corrosion-resistant PVC construction.

J-Trap

Installation Notes

Install in accordance with HVAC system requirements and applicable local codes. Ensure proper trap depth for effective air sealing, use with compatible SCH 40 piping, and avoid excessive force during installation. Manufacturer assumes no liability for improper installation or misuse.
