

TWO-PIECE HEAT PUMP STANDS

Submittal Information

Part No. 18032-18035
Document No. SPEC18032
Date: 2026-09-17
Revision: 01

General Properties

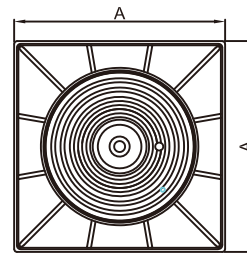

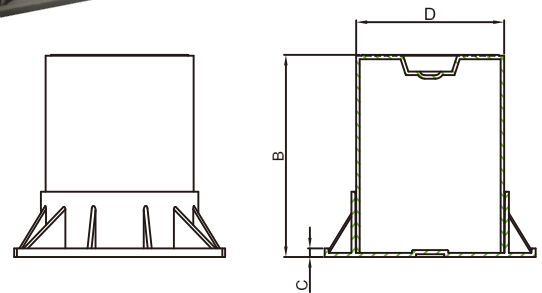

Material: High-Pressure Injection-Molded Polypropylene
Application: Condensers, Heat Pumps and Air Handlers
Maximum Uniformly Distributed Load: 2,000 lb
Maximum Point Load: < 560 lb

Specification

Item No.	Specifications	U/M	Std. Pkg.
18032	3" TWO-PIECE HEAT PUMP STAND, GRAY	4	EA
18033	3" TWO-PIECE HEAT PUMP STAND, BLACK	4	EA
18034	6" TWO-PIECE HEAT PUMP STAND, GRAY	4	EA
18035	6" TWO-PIECE HEAT PUMP STAND, BLACK	4	EA

Features

- Sturdy and stable construction.
- Elevates HVAC equipment above the mounting surface.
- Helps protect equipment from rain, snow and standing water.
- Helps keep the base of condensers and heat pumps dry.
- Butyl mastic on the top and bottom helps resist slipping and reduce vibration and noise.
- Provides reliable elevation for condensers, heat pumps and air handlers.
- Two-piece construction for convenient installation.
